

Education

Bachelor's degree in Computer Science and Computation Arts (BCompSc) in progress, 2023-present
Concordia University, Montreal, Qc

Diploma of College Studies (DEC) in Computer Science Technology 2019-2022
Dawson College, Montreal, Qc

Projects

- Interactive group decision-making website where users can play decision games, create polls, create teams and share their availability through a collaborative calendar, built with **HMTL, CSS, JavaScript** and **Python**.
- High-fidelity **Figma** prototype for a mobile app that helps users improve public speaking through daily challenges, AI feedback, and interactive practice sessions.
- Interactive **AI-powered** website that generates recipes and images using **DALL-E 2** via a **Retrieval-Augmented Generation (RAG)** model trained on culinary data, and **GPT-4o** to detect ingredients from images.
- Interactive website that allows users to play tracks using **HTML, CSS** and **JavaScript**.
- Full-stack **MERN** application that visualizes an animal shelters dataset on an interactive map using **React**.
- Full-stack **MERN** application where users can discover alcoholic drink recipes and interact with them (CRUD – create, update, delete) using **React**.
